Schools To Start; Education for Boys and Girls

It is only a matter of a few weeks until the school bell will ring. Boys and girls will be called back to their studies from a summer's vacation. Gladness and content comes to a flying start. It may be a habit of startings to think that the Glades schools are manned by teachers who know what it all about. The boys and girls must have an education. And just what is an education? I remember reading one time where John Ruskin said: "Education does not mean teaching people what they do not know. It means teaching them to behave as they do not behave. It is not teaching the youth the shapes of letters and the tricks of numbers, as though they were to turn their arithmetic to roguery, and their literature to lust. It means on the contrary, training them into the perfect exercise and kindly continuance of their bodies and minds."

Activity Starts In Farming Section

Have you noticed the activity in the Lake farming areas during the past few days? Things are beginning to happen. Even the merchants, who have had long faces all summer, are beginning to smile again. Farmers and others are back at work and there are many more moonless packing houses will begin to hunt with activity and another season will be upon us. I talked to one merchant the other day and he just couldn't see the bright side of anything. Business was bad, he said. He couldn't see any hope of it picking up before December 1st. Did he see the blues? It was that or worse. So recited him a little piece of teacher taught me many, many years ago. It is something like this: "When you get into a tight place, and everything goes against you, till it seems as though you could not hold on a minute longer, never give up then, for that is just the place and time that the tide will turn." Believe it or not—when I left that fellow he was smiling.

Here's A Good Definition of "Initiative".

Last night I picked up a little book at the house written by Elbert Hubbard. If you remember correctly, I took a look at "Initiative" the last year. Mr. Hubbard summed up initiative in these words: "The world bestows its big prizes, both in money and honors, for but one thing. And that is initiative. What is initiative?" I'll tell you. It is doing the right thing without being told."

That is just about as good an explanation for the word as can be found. I pass it along to you.

Concerning That Proposed \$5,000,000 Mill

After reading some of the stories sent out from Bell Glades, I asked myself if the proposed sugar construction will start tomorrow morning on a new \$5,000,000 cane mill. But that isn't so. Some of the correspondents and newspapermen covering the meeting became a little too enthusiastic when they set themselves down to their typewriters after the meeting adjourned. I've had several letters this week from prospective merchants who are thinking of opening stores in the Glades. Please, let me assure you as soon as the co-operative mill is built, it'll be all right if they don't come before the mill is built. But it's going to be tough on the merchants we have if they decide to come along now and wait for the opening of the mill. Don't misunderstand me. I'd like to see the sugar quota raised, so that the Glades could really produce some sugar. But, I don't like to answer a lot of fool questions about a new \$5,000,000 sugar mill (which may never be built) every time I visit a town outside of the Glades where folks have read these stories sent out by over-enthusiastic newsgatherers.

Canal Point Broker Ill In Atlanta Hospital

San Chastain, Canal Point vegetable broker, is seriously ill in an Atlanta hospital. It was learned in Canal Point yesterday. During the summer Mr. Chastain has been following the vegetable deal up the country while Mrs. Chastain spent the summer in Atlanta. Tifton, Ga., J. S. Chastain, a brother of the stricken broker, received a telegram yesterday morning telling him of the serious illness of Mr. Chastain and asking that he come to Atlanta at once.

Reports Say Governor Cone Is Gaining Ground

Reports emanating from Jacksonville during the past few days have been to the effect that Governor Fred P. Cone is slowly recovering from his serious illness. For weeks past the state didn't know whether he was seriously ill or not. Finally, some bulletins from the hospital told of his serious condition. Since that time several dispatches have stated that he is slowly recovering. Some state newspapers have called on Senator President D. Stuart Gillis of DeFuniak Springs, to go to Tallahassee, and take over the job of governor. The senator at his home in DeFuniak will not discuss the proposition at all. He realizes the delicate situation and will make no statement that might aggravate the condition of the elderly governor.

Trees Three Should Be Cut at Canal Point Bridge

A few days ago I said in my column that three or four trees alongside the West Palm Beach canal near the bridge in Canal Point should be cut down so that motorists might be able to see approaching traffic on the bridge. The trees are still there and each day—as they grow larger—constitute a more dangerous hazard to cars making a right turn north across the bridge. I'm hoping that someone in authority will have them cut down before it becomes my duty to record in this space the results of a serious accident.

Press Association To Meet Nov. 17, 18, 19

The Florida Press Association will meet in Canal Point Nov. 17, 18, 19, this fall for the annual convention. Last year was held in Tallahassee and the Leon Press proved royal entertainers. Word coming from the association is to the effect that no stone will be laid to mark the spot of the meeting. The Leon Press, and note will be applied to the meeting since Jack Worthington, editor of the daily newspaper in Lake Wales who invited the association to gather there, passed away last week. Editor Jack will be missed by every member of the press—but he will always be remembered as one of the go-getters of the association who never hesitated when called upon to perform some duty for betterment of the association and its members.

About Drill Boat, Hyacinth Picker Upper

Drill Boat to Work Ahead of Welatka

The federal government has leased a drill boat from the Standard Dredging company in Jacksonville and it is scheduled to arrive in Lake Okeechobee this week where it will do blasting work ahead of the dredge "Welatka." The "Welatka," under the direction of Capt. Knig, is working steadily worth of Canal Point rebuilding the dike but to date has made little progress since most of the dredging work has been in rock. With the arrival to the drill boat business should pick up considerably and the "Welatka" will hit her old stride of building levee.

Hyacinth Picker Upper Still Ineffective

The hyacinth picker upper, which was built by the U. S. engineers, has not yet been put into operation. This boat, this section a couple of weeks ago in the West Palm Beach's canal, has moved to Moore Haven. Carr Settle, the mechanically-minded editor of the Glades County Democrat, watched it at work the other day and came to this conclusion: "The machine would be practical in a narrow canal but will prove very ineffective in the wide canals of the Okeechobee-Caloosahatchee system."

Engineers' New Home Ready October First

Word from Clewiston is to the effect that the new U. S. Engineers' office being constructed on the government reservation near the hurricane gap is progressing rapidly. A considerable portion of the foundation of the building is completed. Engineers and contractor are hopeful that work will be fully complete on the building by the first of October. At present U. S. engineers are using a portion of the administration building of the U. S. Sugar corporation in Clewiston for their offices.

New St. Lucie Lock Plans Nearing Completion

Since the office of the United States Engineers is located in Clewiston the Clewiston News is always way out front with news emanating from that office. We are reprinting a short story from last week's issue: Plans and specifications on the new St. Lucie locks are nearing completion after a slight delay. Engineers are to move to the new office in Jacksonville about the first of September, according to the statement this week of Caraway Nelson, engineer in charge of the Okeechobee project. Mr. Nelson stated further that the plans would then be sent on to the chief of engineers in Washington where it would require approximately thirty days for final approval. At this time, he says, it appears that the project will be ready to advertise about the latter part of October or the first of November.

Fire Destroys Kilgore Warehouse in Plant City

On Tuesday of this week fire destroyed a large warehouse in Plant City which was owned by the Kilgore Seed Company, plant the largest in the state. Several thousand dollars worth of farm implements and a large stock of merchandise constituted a heavy loss. The loss was estimated at \$50,000 which was partially covered by insurance. A small amount of fertilizer was salvaged from the wreckage following the fire.

New Grocery To Open in Home Town Bakery Building

The front portion of the building recently purchased by Wiley Tillis for his Home Town Bakery in Pahokee has been divided and half of it will be used by him for a display and sales room while the other half will be used for a new grocery store to be operated by Jack Chastain. Mr. Chastain is in Atlanta this week where he is purchasing equipment. The new store will be open and ready for business as soon as the equipment arrives.

New State Market to Be Erected in Pahokee

W. L. Wilson, director of state markets, and Al Vorreller, agricultural engineer, were in Pahokee Monday viewing a site for the market which is to be located in the immediate future. The location is on the road between Stuckey's railroad crossing and the light plant. The 20 acre tract of land was purchased from L. L. Stuckey. Much preliminary work is to be done before actual construction can be started. The county will improve the road in order that the market site may be accessible by truck. The market is to be built on a platform 1000 feet long and additional railroad loading platform 400 feet in length. The 1000 foot platform will be 50 feet wide. Stalls will be built for growers to rent to offer their products for sale. Auction sales will also be held.

Fishermen & Sportsmen Hold Powwow

Lawmakers Speak At Meeting Held Tuesday Night

Commercial fishermen and members of the Palm County—Wildlife leagues met Tuesday night in the Woman's club building in Pahokee and discussed ways and means of pleasing both the sportsmen and the commercial fishermen when it comes to fishing in that large body of water known as Lake Okeechobee. Hon. Peter Tomassi, representative-elect from Okeechobee county, Mr. Eliot Stewart, representative from Hendry county and Hon. Herbert D. Bush, representative-elect from Palm Beach county were introduced to the gathering by Paul Rardin of Canal Point. The lawmakers expressed their views and pledged their efforts to work for some law that would be satisfactory to all concerned. Mr. Stewart from Clewiston was straightforward in his remarks and told the crowd that he wanted to satisfy both sides since he knew there were feelings among the commercial fishermen as well as among the sportsmen.

A great deal of discussion followed the remarks made by the legislators and a resolution adopted by the Wildlife league which calls for setting up a line starting somewhere near Pahokee and running directly across the lake via the lights on Ritter and Kramer Islands, south of which the commercial fishermen would not be allowed to pitch their lines. Some opposition was voiced by Mr. Rardin of Canal Point who felt that it would be difficult to sell this idea to the legislature if they desired to pursue it. One commercial fisherman pointed out that only one-tenth of Lake Okeechobee can be seized anyway...He also stated that sealing is the "making" of sport fishing in the lake.

After three hours of discussion President Harold Rosenberg, of the Pahokee-Canal Point unit, appointed a committee to get together and make an effort to work out some agreeable plan satisfactory to both sides.

About A Wildcat and Chickens

Three Month Old Cat Kills 15 Pulletts

Bob Douthit, superintendent of the Pahokee water works, hasn't made up his mind whether he will try to catch that wildcat he has or turn him loose. It seems that a few days ago Jones Spooner caught the terrible kitty in the woods and brought it to Pahokee and gave it to Bob. Bob made a note of the size and weight of the cat and made a note of what his father had told him. But the story doesn't end there. Wednesday night the cat got loose and raided the Dr. Creel men's house. Results: 15 dead pullets Thursday morning. Bob said the pullets were nice size and when he started to pay for them he found that raising wildcats is an expensive proposition. Anyway, the cat is back in captivity chained to a post in the shade of a tree near the water plant. Whether Bob will be able to tame him and teach him that it isn't right to kill chickens remains a matter of conjecture.

About a Barbecue, Road Work, Welfare

Labor Day Barbecue To Raise Hospital Funds

A group of interested citizens in Pahokee, Canal Point and Belle Glade have decided to have a barbecue to raise money for the Everglades Memorial hospital. They plan to stage a big barbecue at the Legion grounds in Pahokee in the afternoon of September 5—Labor Day—and proceeds will go to the hospital. Robert Mackey, Pahokee grocer and member of the city council, and a committee of 11 other public spirited citizens will be in charge of the affair on that day. Plans call for a sumptuous repast at a nominal price and those of you who wish to do something for a worthy cause will be welcome. The barbecue ticket is \$1.00 and proceeds from the barbecue the institution should be able to weather the financial storm through which it has been passing.

Resurfacing Road 25, Lake Harbor to Hendry County

Work of resurfacing Road No. 25 between the Hendry county line and Belle Glade which was begun last summer when a portion of the road near Bean City was resurfaced has been resumed. The J. A. Ballou Construction company of Lake City is using a 40 man crew and has started operations on the Hendry county highway eastward toward Lake Harbor. They are now working this side of Bean Beach. There are 27 cars of stone at the depot in Lake Harbor with which to carry on the work. A layer of four-inch slag and Florida black top spread and a top coat of asphalt constitute the treatment being given the highway. Colored shembars of the crew are housed in Lake Harbor colored quarters while supervisors and other workers have located their families in South Bay and Lake Harbor.

Social Welfare District Director Visits Glades

L. R. Bristol, district director of the State Social Welfare board, was a visitor in the Lake Okeechobee region on Wednesday of this week. Mr. Bristol has been in charge of the West Palm Beach office for three months and is perfecting a smooth running welfare organization. On his trip this week he visited Canal Point, Pahokee, Belle Glade, Chosen and South Bay in an effort to familiarize himself with conditions in these areas. He plans to make a trip into the section each week or two in the future in order to keep his finger on the needs in the Lake Okeechobee region. While here he said that an examination will be held on September 17 for social welfare workers throughout Florida and all applicants will have September 1 to get their applications into the state office in Jacksonville. Three types of workers will be selected in the future from those who successfully pass the examination. Visitors, unit supervisors and district directors will be chosen from the applicants.

Several New Homes Take Form in Pahokee

The coming of the new vegetable season will find many new homes completed and ready for occupancy in Pahokee. The new home of Mr. and Mrs. Waring is being occupied by them on Canal Point road. Workmen are busy on the new home for Mr. and Mrs. E. L. Pope on Canal Point road. Mr. and Mrs. T. M. Dechman have recently finished a beautiful home on Bacon Point road. Mr. and Mrs. H. C. Michish recently moved into their new residence on Bacon Point. The new home for C. C. Hull in Bailey's Addition is nearing completion. Workmen have started work on another residence in the Bailey subdivision for Dr. G. W. Elarbee.

Acreage To Fall Vegetables Will Be Heavy

A survey made this week among several of the larger growers of this section reveals that acreage planted to early vegetables will be heavy—that is if the weather continues dry. One large grower said Wednesday that there will be more acreage planted to early vegetables than last year. And he amended his statement when we last saw him, saying: "Wait a minute." To our general note he planted to early beans and farmers in all sections of the Glades are busy preparing their land for early planting. Growers are not unmindful of the fact that our rainfall this year is nearly 14 inches behind the same date last year. Some growers will tell you that they like it dry—others are waiting for a few heavy showers. In spots throughout the Glades the soil is entirely too dry to allow planting to go on satisfactorily while in other places it is just right.

We'll Print New Kind Picker's Ticket

Our office is going to print a new kind of picker's ticket during the coming season. Instead of printing tickets on ordinary heavy cardboard I've ordered a lot of a new kind. It's tough! You can't tear it! It'll stand water! You can't soak the printing off of it! If you want tickets printed on this new kind of stock you might as well make up your mind that your tickets are going to cost you plenty. Heretofore you've been paying 50 cents per ticket, \$4 or \$5. Not even \$6 for a single thousand. But more than that. I haven't figured out exactly what we can sell 'em for and make a little money. There's only one thing I don't like about printing a farmer a set of the new kind of tickets. He will probably go for many seasons using the same set since they are so durable. Be that as it may, we'll be ready to serve you with something new this season.

About This and That—And Other Things

Electrical Firm Moves To New Location

Flynn and Padgett, those electrical dealers in Pahokee who handle the complete GE line have moved from the Prince theatre building to the building formerly occupied by the Green Gas company next door to Joe's sandwich shop. Only a few days ago the boys opened up the new shop. The new building location is already their business has outgrown the available space there. Soon after they opened their first store they took on the complete General Electric line of appliances and it was necessary to find larger quarters. In their new location they have plenty of space to display their merchandise and in the rear of the store they have ample room for their ever increasing number of department. The members of the firm have been kept busy this summer wiring new houses and new places of business.

30 Acre Farm In Section 20 Changes Hands

A small real estate deal was transacted this week through the office of C. A. Bailey in Pahokee, who is devoting his entire time to that particular line of business these days. The 30 acre A. F. Hooker farm was purchased by Dr. W. P. Barber of St. Petersburg for a cash consideration of \$6,000. It is an excellent piece of muck and Douglas Mock, bookkeeper for the Pope-Johnson company of Pahokee, will farm it during the coming season.

Two Weeks Residence Rule Applicable September 23

Carmen Salvatore, member of the county school board, informed the Everglades News this morning that the two weeks residence law will become applicable on the 23rd day of September this year. School will start on September 15th regular school days. The Juniors will register on the 23rd. At the Pahokee school the Seniors will register Thursday. The Juniors will register Friday morning from 8 to 10 and the Sophomores from 10 to noon. In the afternoon of that day the Freshmen will be registered. Principal P. E. Walker of the Pahokee school stated that it is important that high school students register at these particular hours.

Petitioners Would Incorporate Canal Point

During the past week four petitions have been circulated in Canal Point in an effort to ascertain the sentiment in regard to incorporating the town. The petitions merely state that those who sign the petition favor incorporation of the town and the signers in this way. One petition carried a large list of names while another one shown at the post office had no signers at all. On September 30 citizens of the town of South Bay will vote on incorporating that town. Much comment has been heard—favorable and unfavorable—concerning the incorporation of the two towns. South Bay will sell all its improvements on the last day of next month with the intent of moving to Wellsboro to express their opinion. The incorporation move in Canal Point is in its infancy and what further steps are to be taken by those behind the move have not been made public to date.

Henry Lovett In Texaco Station Has New Life

The Texaco service station located in the Douthit building in Pahokee and formerly operated by Bill Stratton but more recently taken over by Henry Lovett, has been remodeled and renovated by the new proprietor. Mr. Lovett announced this week that he has taken on a line of tires and will stock them in the future. The new tires will be made by the same manufacturer that the old ones were made by. Mr. Lovett is a well known figure in Pahokee and has many friends who will be glad to learn that he is in business for himself.

Architectural Service Available At Wells Lumber Co.

Victor Geiger, manager of the Arthur Wells Lumber company in Pahokee, announced this week that the firm has employed Frank Holmes, draftsman of West Palm Beach, and that in the future architectural service will be available at the lumber yard. Mr. Geiger also stated that the office for the asking. Wells will now prepare to furnish an entire building service and invites those who are building-minded to get in touch with this organization.

Has Complete Library on Social Security Laws

This writer this week had occasion to visit the office of T. C. (Dick) Richardson in Pahokee where we found that gentleman busy studying a new library. Upon the closer investigation we found that Dick had recently invested a tidy little sum of money in a set of books that tells you everything one should know about the tax, social security tax, unemployment compensation, insurance, the value of annuities and other taxes collected by Florida tax collecting agencies and your own old Uncle Sam. We tried to stick Dick on a few questions but with a flip of the thumb he put his finger on the answer every time. After familiarizing himself with that library we feel sure that it will be a great help to him in carrying on his bookkeeping work.

New Fire Chief Moves Equipment To Pahokee

W. M. (Bill) Stafford, newly appointed chief of the Everglades Fire Control district, has had the Glades unit equipment moved from the old firehouse to his new quarters in Canal Point. The City of Pahokee has granted the fire chief the use of a portion of the fire house without any charge. Chief Stafford had his crew of men busy this week arranging the building to suit his needs. Other workmen were busy repairing and cleaning up the equipment in an effort to have it ready for the first fire truck that breaks out. Mr. Stafford in a few weeks will move his family to the E. G. Kilpatrick house on Bacon Point road. The office of the fire chief has been moved from Belle Glade to the Kilpatrick house where it will remain until permanent quarters can be obtained.

Vacation Bible School Has Enrollment of 145 Pupils

The daily vacation Bible school being conducted in Canal Point has an enrollment this week of 145 children, it was stated Wednesday by one of the instructors. There are 20 instructors helping to carry on the daily classes. The school will be brought to a close next Friday with appropriate exercises in the Canal Point Methodist church. Since the school started on Monday morning classes have been held at the Methodist church and in the Woman's club building which is used by the Canal Point Baptists.

P.T.A., Church, School and Social Notes Of Interest from South Bay Community

The marriage of Miss Junia Christian, Endeavor society at an ice cream party at their home near Bare Beach Friday night. Games were played by the young people, and ice cream served to Murie Lee, Mary Merriam, Mrs. M. P. Polk, Major, and Marvin Lee, Mrs. J. A. Siebenmogen, Marjorie Lee, Floy Prevatt, Bertha Perkins, Evadene Moore, Edward Brown, Dan Jim, Bob and Bruce Bedreid.

The Friday Afternoon Bridge club played two tables of bridge, with the last table of bridge D. Willis the last of the week. Refreshments were served at the conclusion of the afternoon game to: Mrs. E. E. Forbes, Mrs. R. A. Johnson, Mrs. Harry Touby, Mrs. H. C. Willis, Mrs. S. H. Ragan, Mrs. Gordon Bowen and Mrs. Roy Petty.

The Lake Harbor Needlecraft club were guests of Mrs. Margarette L. and Mr. M. M. Morrison last Saturday evening. Members spent the afternoon in fancy needlework, following which light refreshments were served to Mrs. J. S. Scogin, Mrs. J. A. Siebenmogen, Mrs. H. E. Byrd, Mrs. J. D. McCall, Mrs. Wm. Perkins, Mrs. H. R. Layfield, Mrs. Merriam and Mrs. Lee.

Mr. and Mrs. J. M. Beardsey entertained at the Lake Harbor

The board certifies clients for surplus commodities, for WPA and NYA employment, and young men for enrollment in the CCC.

J. Walter Koden, former con-

gressman and state representative died at his Coral Gables home

on Aug. 22. Koden had a political career which was selected to con-

gress when a resident of Pensacola. He moved to Miami in 1925

and was sent to the legislature for twelve years.

Proprietor Installs New Equipment To Better Serve Patrons

Keeping in step with progress in the Lake Okeechobee region Wiley Tillis, proprietor of the Home Town Bakery, this week announced removal of his bakery from the Sharp building in Pahokee to a new and finer home next door to the Lake Shore Supply company in Pahokee. Mr. Tillis is planning to have all of the equipment removed from the old location and additional new equipment installed and ready for operation in the new place on Saturday of this week.

For several years, Mr. Tillis has served the Lake region with the finest of bakery products and his business has grown in the last few months to the place where his old location was entirely too small for satisfactory operation of his plant. The new building was acquired from the Lake Shore Supply company and remodeled into a modern baking plant. He has moved some of the equipment from the old building and the major portion of the machinery to be used in the new location is new. During the past few days workers have been installing the new oven and other equipment in order that this bakery may be in full operation.

During the vegetable season when the bakery is operated to full capacity, the Home Town Bakery employs 17 people, thus adding considerably to the Lake region payroll. Two trucks are in operation all the time, Mr. Tillis said. The plant manufactures the well known Honeykrust bread and Home Town pie. Pastries in the new location of bakery sales room will be maintained and stocked at all times with the finest of delectable products.

Having had the smaller location, it has been necessary to close off outgoing trucks in front of the bakery. Mr. Tillis said yesterday that this inconvenient custom will be dropped when the new bakery is opened. A loading platform will be built in the rear of the building.

With the opening of the new bakery Mr. Tillis extends a cordial invitation to all of the people in the Lake region to call in and see first hand the sanitary and modern conditions under which Home Town products are manufactured. His organization will be pleased to show visitors through the plant, he said.

ANNOUNCES ITS REMOVAL
TO A NEW LOCATION
IN PAHOKEE

Next Door To Lake Shore Supply Co.

In Our New Location AND WITH

Our New Equipment ... WE ARE BETTER PREPARED

To Serve Our Thousands of Patrons

TO OUR PATRONS:

It is with pleasure that we announce the removal of our bakery to our new home next door to the Lake Shore Supply Company. We have installed a great deal of new equipment and made arrangements to care for our increasing patronage. We will be pleased to have you visit our new home and see first hand the sanitary conditions under which Home Town Products are manufactured. Our retail department will be filled at all times with the finest of bakery products.

Please remember that it is a pleasure for us to serve you and that our new home has been acquired with only one thought in mind—that of rendering you the very finest bakery service.

Welfare Board Has Plenty Of Activity

JACKSONVILLE, Fla., Aug. 23

(UPI)—Another instance of the ironical "nothing to do until tomorrow" is illustrated in the annual report of the State Welfare Board.

Daytona Beach to get his mother

Mrs. J. B. Jones, who will visit

here and at Palm Beach.

Mr. and Mrs. George Williams

have returned from Miami where

they spent the week end with Mr.

and Mrs. C. F. Fox.

Mrs. J. B. Shook and daughter,

Blanche, have gone to Quiltin,

Calif., to visit relatives.

Miss Cochran, Fort Myers, is

the guest of Walter Granger.

Miss Clifford Greene has returned

from Lake Okie where she visited

her parents, Mr. and Mrs. Lee

Hayman in Salisbury, Md., before

leaving for the beach.

In addition to receiving 36,278

applications for Aid to the Blind,

of which 32,467

were acted upon, and 2,231 ap-

plications for Aid to the Blind, of

which 1,943 were acted upon, the

board, through the district boards

and staffs, disposed of the fol-

lowing routine business:
